(19) break even; (20) office; (22) e-business; (25) price; (26) buyer; (27) sell

ACTIVITY NOTES

"Crossword 2" is attached on page 3. With this alternate version of the crossword, the teacher can give their own verbal clues to the students.

While more teacher-centered, it provides for more authentic listening practice (from a native-speaker of English) – as well, it addresses the issue of having students who may not be sufficiently skilled at giving vocabulary definitions; also great for mixed ability classes.
