- Listen and number the cats from 1 to 12.

1

Aim Listening Practice

Level Intermediate

Time Approximately 5 – 10 minutes

READ-ALOUD-SCRIPT

1. This cat is gray and striped. It has a big, black nose. It's looking at me and ... I think it's smiling!
2. The next cat is white. Actually, there are three white cats, but this one is wearing a ribbon on it's neck.
3. Below the second cat, there is another cat that is also wearing a ribbon around it's neck. But the cat isn't white, it's gray.
4. The next cat is white. It's sitting down and it's next to a black cat.
5. This cat is lying down and ... Wow! This cat has very big eyes!
6. I think something scared this gray cat. It looks really afraid.
7. This cat is all gray and it's asleep.
8. This cat is also asleep ... but it's striped. It looks a little like the first cat at the top of the page.
9. I think this cat is just a kitten. It looks really young. It's playing with a butterfly.
10. Number ten is completely black. It's sitting next to a white cat.
11. This cat is lying down but it's not sleeping. It's looking up at someone or something.
12. Finally, number 12, ... that's my cat!
Can you guess which one that is?

• Listen and number the cats from 1 to 12.
